Specifications

- 6 or 12 volt operation.
- Normally connected to the negative side of battery but can be used on the positive side.
- This switch can be used as an in-line device on the negative side of the battery to break the ground connection.
- Tested to exceed a continuous 200 amp load. Will work with any automotive battery regardless of the batteries "cranking amps" rating.
- Bolt M8 x 1.25mm Thread
- Supplied with (1) 3/8-16 x 5/8" Long Hex Head Bolt
