Specifications:
• Frequency: 340 MHz.
• Input voltage: 12VDC with reverse polarity protection.
• The output relays are rated at 30A @12VDC.
• Operating temperature range: 0° F to 160° F.
• Transmit range is greater than 100 feet under normal operating conditions.
• Up to 12 keyfobs transmitters can be used with each receiver.
• Both transmitters use A23 12V Batteries.

Reverse Polarity Remote Control

Available Accessories:
• 2-Button Waterproof Transmitter (KF340-2WP)
• 2-Button Keyfob Transmitter (KF340-2)
• Package of 6 A23 12V Alkaline Keyfob Batteries (A23-6)
• 2-Button Rechargeable Transmitter (GKF-WPTX-2)
